

Dear Client,

July 26, 2017

An Important Reminder Regarding the "Sunsetting" of SmartSeries Billing Software:

We are reaching out to let you know of an important decision that will impact your use of SmartSeries software.

After the Teleplan change in September 2016, we realized the critical nature of trying to keep an aging platform up to date. This technology cannot meet future security and provincial compliance requirements, so we have made the decision to sunset it.

The SmartSeries product will be retired and all code-servers and support will be taken offline effective September 30, 2018. As a result, no further updates or patches will be possible to comply with changes in MSP Teleplan billing, after September 30, 2018.

QHR's intent has always been to ensure SmartSeries customers had continued product support, while providing an upgrade path to our MSP-Compatible Accuro Billing Solution.

If you have questions regarding switching over to Accuro, please contact us so we can understand your transition plan and assist with any challenges you are facing.

SMARTSERIES INCENTIVE \$0

*Zero migration fees and no change to current subscription price
for one year with sign-up to AccuroEMR
by August 20, 2017*

Kind Regards,

Mike Checkley
